

PRESS RELEASE.

## TEORESI EXPANDS DISTRIBUTION RELATIONSHIP WITH 3D SYSTEMS FOR GEOMAGIC® SOLUTIONS IN ITALY

*Turin, Italy - July 1<sup>st</sup>, 2021.* **3D Systems Corporation** (NYSE:DDD), the leading global additive manufacturing solutions provider, and **Teoresi**, an engineering group operating in systems design, reinforce their collaboration. **Starting from April 2021**, Teoresi is expanding its distribution relationship with 3D Systems for the company's Geomagic® solutions in Italy.

The collaboration between the two companies has deep roots: started in 2005 with a focus on haptic technologies, it has grown over time by integrating a wide range of Geomagic solutions into Teoresi's offering, aimed at numerous application areas.

*"This is an important step for Teoresi and 3D Systems. This agreement lays the foundations for a more synergistic collaboration between the two companies,"* declares Silvano Tieghi, Business Product Manager of Teoresi. *"The shared goal is to be more present with Geomagic solutions on the Italian market, propose dedicated end-to-end solutions with a project approach, to offer customers a range of services starting from customized training courses, up to after-sales technical support."*

This has always been the approach of Teoresi in the distribution of partner products and in offering its customers the potential of the impressive range of 3D Systems solutions.

*"The growth of a company like ours also goes through the choice of important partnerships, with the best players in the world,"* - says Valter Brasso, Teoresi president and CEO. – *"3D Systems represents for us a further opportunity to ensure high quality standards and provide a complete offer to our customers"*.

3D Systems solutions provide the expertise and digital manufacturing workflow needed to quickly solve technical design and prototyping challenges, targeting professionals in the fields of organic modelling and haptic technology, metrology, reverse engineering and 3D printing.

*"We recognized Teoresi as a partner that is aligned with 3D Systems' business model of designing solutions that include expertise available through consulting and training,"* said Matteo Marcellini, Director, Industrial Solutions, Southern Europe, Russia & India, 3D Systems. *"With extreme competence and a solid company structure, Teoresi is active in a range of market segments and applications that are complementary to our software and haptic devices portfolio. I look forward to not only our shared successes, but more importantly those of our customers."*

### About 3D Systems

More than 30 years ago, 3D Systems brought the innovation of 3D printing to the manufacturing industry. Today, as the leading additive manufacturing solutions partner, we bring innovation, performance, and reliability to every interaction - empowering our customers to create products and business models never before possible. Thanks to our unique offering of hardware, software, materials, and services, each application-specific solution is powered by the expertise of our application engineers who collaborate with customers to transform how they deliver their products and services. 3D Systems' solutions address a variety of advanced applications in healthcare and industrial markets such as medical and dental, aerospace & defense, automotive, and durable goods. ### **Forward-Looking Statements**

*Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results or projections expressed or implied by such forward-looking statements. In many cases, forward-looking statements can be identified by terms such as "believes," "belief," "expects," "may," "will," "estimates," "intends," "anticipates" or "plans" or the negative of these terms or other comparable terminology. Forward-looking statements are based upon management's beliefs, assumptions, and current expectations and may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements" and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements. Although management believes that the expectations reflected in the forward-looking statements are reasonable, forward-looking statements are not, and should not be relied upon as a guarantee of future performance or results, nor will they necessarily prove to be accurate indications of the times at which such performance or results will be achieved. The forward-looking statements included are made only as of the date of the statement. 3D Systems undertakes no obligation to update or review any forward-looking statements made by management or on its behalf, whether as a result of future developments, subsequent events or circumstances or otherwise.*
